

UPCOMING BUILDING IMPROVEMENTS?

www.synergy-engineers.com

Avoid Renovation Surprises...

Navigating through a building renovation shouldn't derail your budget with unforeseen circumstances. We offer a low-cost feasibility study that highlights potential problems and opportunities so you can avoid costly change orders and benefit from an efficient building for years to come.

Total Change Order Cost

> 5-10% of construction budget

Engy Serag, et al., Change Orders Impact on Project Cost, San Diego State University. <https://peer.asee.org/change-orders-impact-on-project-cost.pdf>

Average Feasibility Study

> <1% of construction budget on \$5M project
